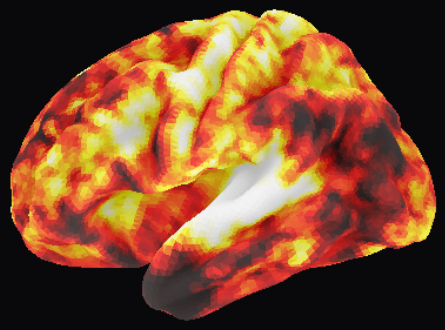
TRIBE v2 Brain Encoding Analysis

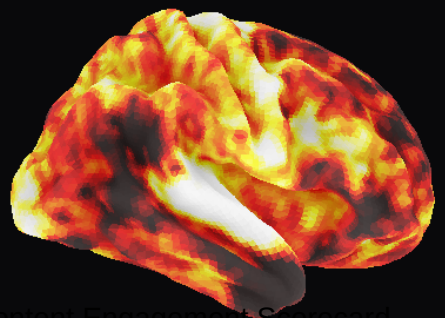
MULTITUDE MEDIA | Cognitive Impact Report



Left Hemisphere

Language, speech, and analytical processing

Activation: 13.7%



Right Hemisphere

Creativity, emotion, and spatial awareness

Activation: 12.7%

Content Engagement Scorecard

Stimulus: Three years ago, CoComelon used to A/B test their videos in front of ten to fifteen live babies. Whichever version held attention the longest, that is...

Overall Neural Engagement: 76/100 (B+)

Top-Down View

Motor planning, attention, and focus

Activation: 11.9%

Category Breakdown

Cognitive System	Score	Grade	What It Measures
Auditory & Language	81/100	A-	Speech comprehension, voice impact, and word meaning
Attention & Spatial	75/100	B+	Sustained focus and spatial awareness engagement
Visual Processing	75/100	B+	How strongly visuals capture attention (faces, motion, color)
Executive & Motor	80/100	A-	Active thinking, problem-solving, and action impulse
Emotion & Decision	71/100	B	Emotional resonance, trust, reward, and persuasion

Engagement Profile

- Auditory & Language: 81/100 (A-)
- Attention & Spatial: 75/100 (B+)

Front View

Decision-making, social cognition, and impulse control

Activation: 12.7%

- Executive & Motor: `` 80/100 (A-)
- Emotion & Decision: `` 71/100 (B)

Engagement Timeline

Second	Engagement	Level
1s	`` 0.1366	
2s	`` 0.1271	
3s	`` 0.1188	
4s	`` 0.1275	
5s	`` 0.1261	
6s	`` 0.1323	
7s	`` 0.1390	
8s	`` 0.1494	
9s	`` 0.1567	
10s	`` 0.1620	PEAK
11s	`` 0.1361	
12s	`` 0.1484	

Peak engagement: Second 10
Attention sustained throughout all 12 seconds strong holding power

---

Brain Laterality

Hemisphere	Activation	Processes
Left Brain	0.03033	Language, logic, analytical thinking, speech
Right Brain	0.02282	Creativity, emotion, spatial awareness, music

Left-brain dominant (laterality: +0.141) This content engages analytical and language processing more than emotional/creative circuits. Typical of speech-heavy, informational, or text-based content.

Predictive Insights

Metric	Prediction	Confidence
Watch-Through Rate	100% of viewers will finish	High
24hr Ad Recall	70% recall probability	Medium
Purchase/Action Intent	63/100	Moderate
Virality / Shareability	68/100	Moderately Shareable
Cognitive Load	78/100 (High)	
Optimal Content Length	~12s	Based on attention decay
Best Content Fit	Educational	Based on cognitive profile

Key Findings

Strongest signal: Auditory & Language (A-). This content is speech/audio dominant the words and voice carry the most neural weight. The speaker's message is the primary engagement driver.

AI Strategic Action Plan

Based on your neural encoding profile, here is exactly how to optimize this content for higher engagement:

1. Scale and Distribute: Your neural engagement is exceptionally well-balanced. Do not change the core creative. Lock this in for A/B testing on paid ad campaigns to find the best audience match.

Bottom Line

76/100 Good. Solid engagement with room to improve. Focus on the weakest category.
